

Grading Practices

School: Kempsville High School

Subject(s): Algebra Functions & Data Analysis

Grade Level: 9-12

Homework

Homework will be given every class period and is a tool to reinforce the material that was covered in class. Late homework will be accepted one class period late. It is the responsibility of the student to turn their late homework into the teacher. Daily homework will not exceed 10% of a student's cumulative grade.

Late Work

It is mandatory for students to be present and participate in class. If you are missing work, you need to check the teacher folder/student portal for your class to see the assigned work for the absent days. It is up to you to get the work done on your own time and turned into the teacher.

Explanation of Zeroes

If a student is absent, AB is entered into the gradebook and will be replaced with a grade as soon as the assignment is turned in. If an assignment is not turned in and the student is present, MI will be entered to let the student know it is missing. Once the assignment is turned in, this will be replaced with an actual grade.

Reassessment

Any student has the opportunity to retake any test or assessment. Students must correct missed questions on the original test before given the opportunity to complete a test retake. Students will not be able to retake a test without completing their test corrections and demonstrating understanding of the topic.

Make-up Work

Make up work will be accepted the next class period for full credit. Any make-up work due to an excused absence will be accepted and assessed with no penalty. Reasonable and flexible deadlines will be provided based on a student's individual circumstance. Students can make up assignments from an unexcused absence at the discretion of the teacher based on student communication with the teacher.

Extra Credit

Extra credit will be used purposefully as an opportunity for further learning.
