

Grading Practices

School: Kempsville High School

Subject(s): AP Chemistry

Grade Level: 11-12

Homework

- ◆ Some of the lectures or tutorials for this course will be online (Cengage, Schoology, or Google Classroom) and watched by you for homework.
- ◆ You will complete notes as you watch the lecture which will be checked for completion and understanding for a homework grade.
- ◆ The flipped class will allow for more problem- solving practice and lab work during class and will also allow you to watch the lectures multiple times.
- ◆ All work **MUST** be shown when solving problems. Answers alone will not earn credit.
- ◆ All homework cannot be reviewed in class, so if you are having trouble, please make arrangements to come for extra help after school.
- ◆ Late homework assignments will not be accepted, except in special circumstances.
- ◆ AP students have homework every night!
- ◆ Read, review, study!!!
- ◆ Completing homework is crucial for your success in this class, but it is *your* responsibility and will account for about 10% of your grade. You cannot master chemistry just through classwork. Studying and practice is mandatory.

Late Work

Late homework assignments will not be accepted, except in special circumstances.

Explanation of Zeroes

Zeroes will be given if assignments are not attempted.

Reassessment

In addition to AP Chem class, please expect to stay after school (Room 401) to complete labs, get extra help, or to make-up work.

I am almost always available after school.

Please see me or email me about any problems or concerns as quickly as possible.

Make-up Work

- ✓ When a student is absent, the student must obtain, copy, and complete all missed assignments and study all missed class notes before coming to me for extra help.

- ✓ Access Schoology and/or Google classroom to watch lectures, get assignments and check for upcoming quizzes, labs, or tests.
- ✓ For absences on the test/quiz day only, the test/quiz must be taken on the day you return to school. Plan ahead if you know you will be out!
- ✓ If you return to school the day after the test is given, make plans to take the test that day during or after school, even if you do not have AP Chem that day.
- ✓ For absences longer than one day, please see me immediately upon your return to school or email me to schedule a make-up.
- ✓ Labs must be made up within one week. Some labs may not be made up. Each student is responsible for doing the work, so copying a lab partner's work is unacceptable and will be considered a violation of the Honor Code.

Extra Credit

N/A
