

## Grading Practices

School: Kempsville High School

Subject(s): Earth Science

Grade Level: 9-12

### Homework

The purpose of homework is to finish any unfinished work from class and to review material to prepare for tests and quizzes.

### Late Work

Late work will be accepted up until the last 2 weeks of the grading period.

### Explanation of Zeroes

The following grading codes will average in as zeroes until necessary work is completed. Use of grading codes in gradebook include--

MI--missing

EX--excused

AB--absent

### Reassessment

Students who receive a failing grade on a unit test will have a two week time frame to retake. Students must have-- participated in class, completed all assignments, and completed study guide for test.

### Make-up Work

**Make-up Work:** When absent, students should refer to Schoology for assignments and announcements.

- Students should use their classmate phone contacts
- Tests, quizzes and labs should be made up before the next unit's test.
- If a student is absent the class before a test or quiz is given they are still required to take it with the rest of their class.
- All assignments can be made up. A zero/Mi will be put in the gradebook until work is made up or submitted

### Extra Credit

**Extra credit:** EC will be used for learning activities and the extra credit will be weighted according to the difficulty of assignment.
